YMCA's Policy on Sport

The YMCA's policy is to teach all children to play in the manner of good sportsmanship; play in a non-pressured environment; give all children a fair go for their enjoyment and developmental needs. Parents must realize children are learning to play the game and develop individually at their own pace. The YMCA expects parents to encourage all players and recognize all children's efforts.

Parents may need to assist with subbing the children on and off the court. A sub sheet is provided to ensure all children have the same amount of playing time.

If you have any questions, please do not hesitate to ask. We are here to help and provide the children with an enjoyable introduction to Sport. Let's all keep the 'Y' a safe place to play sport!
